List of Carry-In Items	持込物品リスト	(1) 物品名、(2) 規格等、(3) 数量、(4) 使用目的、(5) 使用場所、(6) 備考(電気配線、水配管等の必要性)、(7) その他 (1) Name, (2) Standard, (3) Quantity, (4) Purpose, (5) Location to use, (6) Remarks (any wiring or plumbing), (7) etc.
	<input style="width: 100%; height: 150px;" type="text"/>	

必要の場合は追加リストを添付すること。 If space is not enough, please attach an additional list.

*申請期間は1年が限度です。2期を超えて申請する場合は再申請してください。 For a period of up to one year. To request an extension, please submit another Form 8-1.

Terms and Conditions for the Equipment Brought in to SPring-8

(General Matters)

1. To bring in experimental equipment and/or peripherals (hereinafter the "Equipment") to be used and kept in SPring-8 for a period spanning more than one research term for the conduct of a research proposal, users shall: (i) take all reasonable safety precautions; (ii) comply with the applicable laws and regulations and the policies, procedures, rules and regulations established by the Japan Synchrotron Radiation Research Institute and RIKEN (hereinafter the "Facility Manager"); (iii) ensure that the use and keeping of the Equipment shall not interfere with the activity of other users.

(Application Procedure)

2. To bring in the Equipment, users shall submit an "Application for Equipment Installation" prescribed by the Facility Manager and obtain prior approval from the Facility Manager.

(Installation Period)

3. The Equipment may be kept in SPring-8 during the period approved by the Facility Manager (hereinafter the Installation Period). To request the extension of the Installation Period, users shall submit the prescribed application form and obtain approval from the Facility Manager before the expiration of the Installation Period.

(Installation Procedure)

4. Before the Equipment installation and connection (hereinafter the "Installation"), written permission from the Facility Manager must be obtained. The Equipment shall be installed and connected safely and securely only at the site designated by the Facility Manager. After the Installation is completed, the Equipment shall be inspected by the Facility Manager prior to use.

(Cooperation)

5. Users shall cooperate with the Facility Manager whenever the approval of the authority is required for the Installation or use of the Equipment.

(Safety Management)

6. The Equipment shall be used solely for the purpose of conducting proposed research and for no other purposes. During the Installation Period, users shall manage, use, and maintain the Equipment with due care of a prudent manager by implementing proper safety measures. (e.g. Always keep the instruction manual and the contact point readily available and easily accessible.)

(Modification)

7. Modification or repair to the Equipment requires the permission of the Facility Manager.

(Cost)

8. The applicant shall bear the cost and expenses associated with bringing in the Equipment to SPring-8.

(Termination)

9. In the event that the use of the Equipment is deemed to have a negative impact on SPring-8, its auxiliary facilities and other equipment, the Facility Manager may issue an order stopping the use of the Equipment. In such a case, the Facility Manager shall be indemnified and held harmless for any losses or damages arising as a result of the stoppage.

(Removal)

10. Upon completion of the proposed research or the Installation Period, users shall remove the Equipment, and return the SPring-8 facilities in their original condition, which shall be subject to inspection by the Facility Manager. In the event that the applicant fails to comply with said requirements by the date specified by the Facility Manager, the Facility Manager may do so at the applicant's expense.

(Liability)

11. The Facility Manager shall not be liable for any damages that have been caused by or in connection with the storage of the Equipment except in case of willful misconduct or gross negligence of the Facility Manager.
