

End of the Engagement in Genetic Modification Experiment

Submission Date: **March 1, 2015**

To: The Director of Safety Office, Japan Synchrotron Radiation Research Institute

Submit this notification and re-register when your affiliation changes.

Division · Group · Room Research & Utilization Division
 Name of Division Head,
 (Signature) XXXX

I hereby inform that the following member has completed his/her engagement in genetic modification experiment.

Genetic Recombination Experiment Worker	Name	Taro Koukido
	Title	Researcher
	ID No.	0001***
Contact Information	Extension / PHS	PHS: 1***
	E-mail	koukido@*****.or.jp
Period of Experiment	Actual Start Date June 1, 2014	Actual End Date February 28, 2015

The period during you are actually engaged in the experiment.

For Safety Office Only

Deregistration by Safety Office		Receipt by Safety Office	
---------------------------------	--	--------------------------	--

20-3

- 1) Circle Continuing or End.
- 2) Receipt Number is given by Safety Office when the Application Form for Genetic Modification Experiment is submitted.
- 3) Obtain approval from your "Supervisor"
JASRI Staff: Division Head,, etc.
Outside Staff (RIKEN): Your immediate Manager, etc.
User: Manager of SPring-8 Users Office (Leave it blank upon submission)
- 4) Circle appropriate items on the other sheet to make a report about actual experimenters, locations, storage of transgenic organisms, used transgenic organisms. Attach the sheet to this report upon submission.
- 5) When the experiment is ended, check the appropriate item to show if transgenic organisms, etc. are in storage or not. If any, submit Form 20-4 Notification of Storage of Genetically Modified Organisms.
- 6) Fill in only if physical containment at the level of P2,P2A, or P2P is necessary to conduct the experiment.
- 7) Explain about the checks on the facilities utilized in the genetic modification experiment during or at the end of the experiment.
- 8) If any, describe the knowledge obtained in this experiment that may have impact on safety assurance.
- 9) If a question arises in connection with this report, the Genetic Modification Experiment Safety Committee will be engaged in inspection.
