

Records for using portable and assemble-type animal treatment room (No.:)

Notes:

1. The number of animals you can carry into the treatment room is equivalent to that contained in one transport box (approximately 20 mice) per one carry in. The duration of the treatment of animals should be no more than 8 hours per treatment.
2. Never leave open cages or transport boxes of animals unattended.
3. This Record should be submitted to the User Administration Division after the end of experiment.

Research proposal number (receipt number in Animal Experiment Application):

Beamline:

Project leader of animal experiment (affiliation):

Number of times of carry in	Animal species	Phylaxis		Gender	Number of animals	Date and time of carry in	Date and time of completion of treatment
		Genetically modified animals	Non-genetically modified animals
